

30390] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Rm. 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:

opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

Written comments filed pursuant to this notice, will be available in the Public Response and Program Resources Branch, Field Operations Division at the address provided from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. It is suggested that persons interested in reviewing the application file, telephone this office at (703-305-5805), to ensure that the file is available on the date of intended visit.

Authority: 7 U.S.C. 136.

Ciba-Geigy Corp; Approval of Pesticide Product Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces Agency approval of applications submitted by Ciba-Geigy Corporation, to conditionally register the pesticide products Peak, Exceed, and Prosulfuron Technical containing new active ingredients not included in any previously registered products pursuant to the provisions of section 3(c)(7)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

FOR FURTHER INFORMATION CONTACT: By mail: Robert Taylor, Product Manager (PM) 25, Registration Division (7505C), Office of Pesticide Programs, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 245, CM #2, Environmental Protection Agency, 1921 Jefferson Davis Hwy, Arlington, VA 22202, 703-305-6800; e-mail: taylor.robert@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: EPA issued a notice, published in the **Federal Register** of August 18, 1994 (59 FR 42593), which announced that Ciba-Geigy Corp., P.O. Box 18300, Greensboro, NC, 27419, had submitted applications to conditionally register the pesticide products Exceed WG (now known as Peak) and Prosulfuron Technical (EPA File Symbols 100-TAG and 100-TAE), containing the active ingredient prosulfuron 1-(4-methoxy-6-methyl-triazin-2-yl)-3-[2-(3,3,3-trifluoropropyl)-phenylsulfonyl]-urea at 57 and 96 percent respectively, an active ingredient not included in any previously registered products.

EPA subsequently received an application from Ciba-Geigy to register the product Exceed (EPA File Symbol 100-TTU), containing the active ingredient prosulfuron 1-(4-methoxy-6-methyl-triazin-2-yl)-3-[2-(3,3,3-trifluoropropyl)-phenylsulfonyl]-urea at 32.3 percent, an active ingredient not included in any previously registered products and primisulfuron-methyl 3-[4,6-bis(difluoromethoxy)-pyrimidin-2-yl]-1-(2-methoxycarbonylphenylsulfonyl) urea also at 32.3 percent, an active ingredient that was registered in 1990, for use in other products. However, since the notice of receipt of application was not published in **Federal Register**, as required by FIFRA, as amended, interested parties may submit written comments within 30 days from the date of publication of this notice for this product only. Comments and data may also be submitted electronically by sending electronic mail; e-mail to: opp-docket@epamail.epa.gov. More detailed information is found in all documents requesting comments as of May 1995.

The applications were approved on May 3, 1995, for one technical and two end-use products listed below:

1. Prosulfuron Technical for formulation into herbicides for the use on corn (EPA Registration Number 100-762).

2. Peak Herbicide (formerly Exceed WG) for weed control in field corn (grown for grain, silage, or seed), popcorn, and sweet corn (EPA Registration Number 100-763).

3. Exceed for weed control in field corn (grown for grain, silage, or seed), and popcorn (EPA Registration Number 100-774).

A conditional registration may be granted under section 3(c)(7)(C) of FIFRA for a new active ingredient where certain data are lacking, on condition that such data are received by the end of the conditional registration period and do not meet or exceed the risk criteria set forth in 40 CFR 154.7; that use of the pesticide during the conditional registration period will not cause unreasonable adverse effects; and that use of the pesticide is in the public interest.

The Agency has considered the available data on the risks associated with the proposed use of prosulfuron and primisulfuron-methyl, and information on social, economic, and environmental benefits to be derived from such use. Specifically, the Agency has considered the nature and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of prosulfuron and primisulfuron-methyl during the period of conditional registration will not cause any unreasonable adverse effect on the environment, and that use of the pesticide is, in the public interest.

These products are conditionally registered in accordance with FIFRA section 3(c)(7)(C). If the conditions are not complied with the registrations will be subject to cancellation in accordance with FIFRA section 6(e). Ciba-Geigy must make sure that all required studies are submitted under the terms of these conditional registrations.

Consistent with section 3(c)(7)(C), the Agency has determined that these conditional registrations are in the public interest. Use of the pesticides are of significance to the user community, and appropriate labeling, use directions, and other measures have been taken to ensure that use of the pesticides will not result in unreasonable adverse effects to man and the environment.

More detailed information on these conditional registrations is contained in

an EPA Pesticide Fact Sheet on prosulfuron and primisulfuron-methyl.

A copy of this fact sheet, which provides a summary description of the chemical, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label and the list of data references used to support registration are available for public inspection in the office of the Product Manager. The data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2,

Arlington, VA 22202 (703-305-5805). Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.

Reregistration Eligibility Decision Documents for Ethephon, et al.; Availability for Comment Correction; Extension of Public Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice correction.

SUMMARY: In this notice EPA is correcting a Notice of Availability of Reregistration Eligibility Decision (RED) for active ingredients of Ethephon, Linuron and Metolachlor which published in the **Federal Register** on May 24, 1995 and is reopening the comment period.

DATE: The comment period for this RED is reopened and comments are due by August 31, 1995.

FOR FURTHER INFORMATION CONTACT: Technical questions on the decisions in this RED and on this correction should be directed to the appropriate chemical review managers listed below:

List	Chemical Name	Case No.	Chemical Review Manager	Telephone No.
List A	Ethephon	Case 0382	Judy Loranger	(703) 308-8056
List A	Linuron	Case 0047	Karen Jones	(703) 308-8047
List A	Metolachlor	Case 0001	Jane Mitchell	(703) 308-8061

Correction

In FR Doc. 95-12566 published in the **Federal Register** of Wednesday, May 24, 1995, beginning on page 27505, in the 2nd column, fourth line from the top, the sentence "EPA has determined that all currently registered products subject to reregistration containing these active ingredients are eligible for reregistration.", is corrected to read as follows: "EPA has determined that all currently registered products subject to reregistration containing Metolachlor are eligible for reregistration except those with uses for potatoes, soybeans, and peanuts. An eligibility decision for these uses cannot be made at this time because under current policies, section 409 tolerances under the Federal Food, Drug & Cosmetic Act (FFDCA) are needed because Metolachlor concentrates in some of the processed fractions of these crops and such tolerances may be barred by the Delaney Clause. EPA has determined that all currently registered products subject to reregistration containing Linuron are eligible for reregistration except for the use of Linuron on cotton, potato, non-cropland (rights-of-way), and sweet corn until additional generic data are submitted. The Agency is unable to make a reregistration eligibility decision on the use of Linuron on potatoes

because under current policies tolerances under section 409 of the (FFDCA) are needed for this use, but such a tolerance may be barred by the Delaney clause in section 409."

There are no changes regarding Ethephon.

Dated: July 20, 1995.

Lois Rossi,

Director, Special Review and Reregistration Division, Office of Pesticide Programs.

Pesticide Tolerance Petitions; Filings, Amendments, and a Withdrawal

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces initial filings, amendments, and a withdrawal of pesticide petitions (PP) and food/feed additive petitions (FAP) proposing the establishment of regulations for residues of certain pesticide chemicals in or on various agricultural commodities.

ADDRESSES: By mail, submit written comments to: Public Response and Program Resources Branch, Field

Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1132, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA 22202.

Information submitted as a comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: opp-docket@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be
